

How to use this guide

Are you looking for...?

Help and advice?

If so, take a look at our editorial section (pages 5 to 34). Here you will find articles written by experts in their field covering issues you may well come across when choosing a school for your child.

A school or college in a certain geographical region?

Then you need to go to page D117 to find the directory page reference to a particular region. We suggest that you look first in the directory for basic information about all the schools in each region, complete with contact details, so that you will be better informed about the choices available to you. From this section you will be directed to more detailed information in the listings, where this is available.

A certain type of school or college in a particular area?

Look in the directories for the area you want (again, you can find a directory page reference on D117). Underneath each school listed you will find icons that denote different types of schools or qualifications that they offer. You can find a key to these icons on the following page; this key is repeated at the front of each section of the directory.
