

Francis Holland, Regent's Park our Class of 2024 have once again achieved excellent A Level Results

At Francis Holland, Regent's Park, we are delighted that our Class of 2024 have once again achieved excellent A Level Results, with 91% of A level students achieving A*-B grades in 2024. This is testament to their hard work and dedication within a uniquely warm and supportive school community where dynamic and inspirational teaching brings subjects to life.

Our curriculum offers academic rigour, as well as choice and flexibility. This has recently been recognised in the school winning the Muddy Stiletto's Best Schools "Excellence in STEM" Award. One former Sixth Form student who went on to study Natural Sciences at Cambridge commented, "Thanks to Francis Holland, I developed a love of science. They really broke the mould of what I had assumed a 'sciencey-type' of person was, discovering that I loved being able to understand principles and apply them."

However, a Sixth Form education is about so much more than academic achievement. We aim to inspire students to pursue their most heartfelt passions, and to leave us as young adults equipped with resilience, courage and empathy. The working world is changing, and it is our job as educators to encourage and empower our students to learn how to take risks, learn from failures and embrace the challenges, as well as the opportunities, of tomorrow. Skills such as creativity, curiosity, compassion, perseverance, storytelling, emotional intelligence and fostering a lifelong love of learning could not be more key.

Our Sixth Form is based in our state-of-the-art centre, Linhope House, which combines an elegant, Georgian exterior with a cutting-edge interior, offering the perfect transition between school and university style learning. Only a two-minute walk from our main school building at Ivor Place, Linhope features superb collaborative and individual learning and study spaces, such as soundproofed study booths, a Think Lab with integrated technology and a spacious Common Room. Sixth formers are connected to the rest of the school as they walk between buildings for their lessons, offering a 'college' feel.

FHS pastoral care is outstanding; with a committed tutor team; each student is supported on her unique journey. Our strong higher education provision offers bespoke support and advice, whichever pathway a student decides to follow. For some, this is a gap year, or even a degree apprenticeship with Goldman Sachs. For the majority, university beckons at a wide range of courses, both in the UK and abroad. This year's university destinations include Physics at Imperial, Classics at Cambridge, Biological Science at Royal Veterinary College, to name but a few.

If you're interested in joining our Sixth Form, book now for our 16+ Open Evening on Thursday 19th September 2024: <https://www.fhs-nw1.org.uk/admissions/admissions-16-plus/>
