

FRANCIS HOLLAND SCHOOL
REGENT'S PARK

THE SCHOLARS' PROGRAMME

Francis Holland, Regent's Park has a hundred and one ways of offering academic enrichment and stretching the most able. In every subject across the entire curriculum there are opportunities to excel, along with the support, encouragement and challenge which are required to succeed. Below are some of the elements of school life which appeal to the most academically able pupils, including some which are available to scholars and exhibitioners only (*marked with an asterisk):

Six academic enrichment lectures each academic year

Oxford and Cambridge University visits in Year 10

Cambridge University Subject Masterclasses in Year 12

UK Maths Challenge and Hans Woyda Mathematics competitions

Model United Nations Society and Debating Society

*Termly Scholars' Lunch with the Assistant Head

Year 7 and Year 8 Scholars' Project with Year 12 Scholars acting as research mentors

Critical Thinking and Philosophy lessons in Year 7

Computer Programming Club

Enhancement Physics including Electronics & Robotics Club

*Individual target-setting meetings with a senior teacher annually

Quondam and Oxbridge essay competitions and prizes

Extended Project Qualification
